Student Experience

York University, Toronto, ON | September 2022 – April 2026
Information Technology Student

- I am currently pursuing a bachelor's degree in information technology, where I am gaining a strong foundation in computer science principles and practical skills.
- Completed Introduction to Data Structures, which is emphasizing linked lists, binary trees, stacks, queues, and other data structures
- In parallel, I have also completed Introduction to Applied Statistics, where I am implementing statistical tools like Z, T, or Chi-squared tests and regression analysis. Utilizing statistical software, particularly R, I am gaining practical experience in data analysis
- Currently taking Introduction to Data analytics, which focuses on techniques to manage modern organizations, topics such as data mining techniques, risk analysis, along with web mining, decision analysis and big data considerations
- System Architecture, emphasis on architectural styles and patterns, object-oriented designs

---
